### Registration 2011-2012

Current students, siblings, siblings of former students and church members can begin registering for next year today through the end of January. All forms must be turned in no later than Jan 31st to ensure a space for your child. Remaining openings will be open to the public on Wednesday, Feb. 1th beginning at 9:00am. Little Elks depends on recommendations from former and current student's families to introduce new families to our program. Any and all recommendations are appreciated on your email list, facebook pages, and all other events where preschool families are participating. If you would like brochures to hand out let me know, also you may encourage them to check out website at [littleelks.com](http://littleelks.com) for more information about registering.
