

Brenda Robles Flores

1785 Russell Cave Road

After living in Lexington for the past 13 years, Brenda's sister encouraged her to look into Habitat for Humanity as a way to achieve her dream of homeownership. The thought of being able to buy a home has left her excited, as she shares, "I can't believe it, but I am very happy."

A native of Durango, Mexico, Brenda currently works for Scentsy, packing orders for ten-hour shifts. When she is not working she dedicates the majority of her time to her children, Anthony (5) and Larry (2), by taking them to the park and playing games. Brenda is most thrilled that the Habitat home will provide her two little ones with the opportunity to have their own rooms and the chance to play freely outside. In addition to becoming a homeowner, Brenda aspires to attend college in the near future so she can bring her education in line with her passions, providing a better future for her children.

Brenda's gratitude shines bright as she exclaims, "Thank you Disciples for Habitat, Tenmast Software, Wells Fargo Housing Foundation and all of the volunteers working alongside me on my new home. I really appreciate it very much. I am very happy to be a part of Habitat. Thank you again."

Lexington Habitat Homeowner Study Outcomes
